THE REPORT

OF THE

PRESIDENT OF QUEEN'S COLLEGE, CORK,

FOR

THE ACADEMIC SESSION 1889-90.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY—

I have the honour to submit to Your Majesty the following Report on Queen's College, Cork, for the Academic Session 1889-90.

At the Entrance Examination in October, and at the supplementary examination, 13 candidates presented themselves, of whom 7 passed, and 6 were rejected; 64 students were admitted on the matriculation examination of the Royal University, and 19 from other Universities and Colleges, making in all 90 new matriculated students; 6 also entered as non-matriculated students, so that the total number of new students was 96. The total number of students on the books of the College for the session was 238, of whom 228 were matriculated, and 10 non-matriculated.

In the Appendix (A., pp. 7 to 11) will be found the usual statistical information about the College, to which I beg leave to refer for further numerical details.

The College has sustained a severe loss by the death of President Sullivan in the month of May last. During his seventeen years' tenure of office he devoted his untiring energy and wide experience to the promotion of the higher education in the south of Ireland, and especially in the teaching of Chemical, Physical, and Medical Science, initiated improvements which it will be the work of many years to carry to their full development. The new entrance, the observatory, the plant-house, the botanic garden, the enlarged collections in the various museums and laboratories, remain as monuments of his zeal for the improvement of the College, and of his careful study of its requirements

as a place of education. Outside the sphere of collegiate duties, his readiness to give time and attention to the promotion of all works of public utility, shown among many other instances by his successful labours in the Cork Exhibition of 1883, in the Crawford Municipal School of Art, and in the Munster Dairy School, recommended him personally to the inhabitants of this part of the United Kingdom; while his Reports on the condition of Irish Industries, his contributions to the proceedings of the Royal Irish Academy, to the *Atlantis*, and to many foreign scientific publications, and his learned and elaborate Introduction to the Second Series of O'Curry's Lectures on the Manners and Customs of the Ancient Irish, made his name and that of the College over which he so worthily presided known throughout the learned and scientific world. His many and well considered projects for the extension of the various educational departments of the Institution remain to his successors as a legacy of far-reaching and judicious plans of progress.

I had the honour of receiving a warrant, dated the 27th of June, 1890, under your Majesty's Royal Sign Manual appointing me to the office rendered vacant by his death, and I have since entered on the discharge of its duties in the manner provided in the statutes relating thereto.

The recent date of this appointment precludes me from making a Report founded on personal knowledge of the proceedings of the College during the past academic year; but sufficient evidence has been supplied to warrant me in informing your Majesty that discipline has been well maintained, and that the condition of the College in all essential respects is satisfactory.

And I have the honour to be,

Your Majesty's most dutiful servant,

JAMES W. SLATTERY, *President.*

QUEEN'S COLLEGE, CORK,

July 22, 1890.
